

video ► solutions

We make video easy, period.

Your trusted partner for every event.

Tired of relying on multiple teams or vendors for video capture, production, and distribution? Our Video Solutions team is ready to provide comprehensive support for any or all of your video content needs with a combination of innovative, AI-driven technology and personal service from experienced video technicians. Whether setting up a live stream for a remote presenter, organizing video capture and distribution for an event, or designing a branded event microsite, Video Solutions can deliver a customized solution that meets your event's needs from start-to-finish.

On-Site and Remote Capture

High-quality and secure video capture solutions for your corporate meetings, academic lectures, training seminars, or remote presentations.

Post-Production Editing

Leverage the expertise of our video technicians to optimize and enhance your video content to improve accessibility, searchability, and engagement.

Live Stream and On-Demand Distribution

Reach the largest possible audience, wherever they are, with reliable distribution solutions for pre-recorded or live content.

Comprehensive Support for Your Event Video

AI-Powered Transformations

Improve the quality, versatility, and value of your video with AI-supported capabilities. Improvements include engagement-oriented features like captions and quizzes, and production-focused edits like background noise removal.

Platform Options with 24-Hour Distribution

We offer flexible 24-hour distribution solutions that are compatible with any video management platform, with the added expertise to design custom microsites or branded video libraries.

Useful Analytics and Insights

Understand what resonates with your audience with advanced content analytics that will empower your events team to make informed programming decisions, and measure the ROI of video and brand initiatives.

Personal Service

Our experienced team will lead you through every step of the video production process – from answering questions, to coordinating logistics and troubleshooting challenges. You'll get a customized solution to meet your event's needs and goals.
